- Tehran

I am a highly motivated and self-taught full-stack developer with a deep passion for embracing new technologies. I firmly believe in the limitless possibilities of creation, considering nothing impossible. My commitment to continuous learning is evident through self-directed education and regular exploration of documentation, ensuring that my skills are always up-to-date in this ever-evolving field.

WORK EXPERIENCES

Full Stack Developer

Developed Telegram bot using Python, proficiently dockerized for streamlined deployment. Implemented a user-friendly management panel with Next.js, leveraging its full-stack capabilities for authentication and API integration with the database. Successfully deployed the solution on a server for optimal performance.

- Python: Created a robust Telegram bot.
- Next.js: Developed a user management panel and utilized its full-stack capabilities.
- Docker: Ensured efficient deployment and scalability of the application.

Front End Developer

Utilizing React, I designed and implemented a dynamic web page, incorporating direct connections to "Rayan Hamafza" for specific data displays. I integrated live stock market charts and facilitated seamless interactions by connecting to REST APIs for sending Algorithmic orders and monitoring their status.

Back End Developer

Developed a robust stock trading platform integrating "Rayan Hamafza" APIs, enabling real-time data processing through websockets. Specialized in transforming and optimizing data for effective utilization. Implemented algorithmic trading capabilities, allowing seamless integration of algorithm models for algorithmic trading (algo trading). A key contributor to enhancing trading efficiency and decision-making.

PROJECTS

Issue Tracker Web Application

Designed and developed a dynamic web application for efficient issue tracking. Empowered users to seamlessly set, filter, sort, and search issues, fostering streamlined collaboration. Implemented comprehensive status tracking to easily discern between open and closed issues, enhancing overall project management.

Contract Management System

Developed a Contract Management System for swift contract creation, ensuring enhanced operational efficiency.

SKILLS

Technical

- React/Next.js
- Python/Django/FastApi
- SQL/NoSQL Database
- Object-oriented design

Professional

- Effective communication
- Team player
- Strong problem solver
- Good time management

EDUCATION

computer engineering

- University of Pardis
- 2019 - 2023

LANGUAGES

- Armenian (Native)
- Persian
- English

INTERESTS

- Gym
- Reading books
- Watching movies
